

INBERROW PRIMARY SCHOOL – SUBJECT VISION STATEMENTS

Love to Learn, Learn to Care

ENGLISH

To deliver an exciting and inspiring English Curriculum which enables and empowers children to write and communicate clearly and confidently

Throughout the school, pupils are taught to read fluently with understanding, fostering a love of reading for pleasure and enabling them to access all other areas of learning. They apply the key skills of spelling, grammar and punctuation to their work, writing coherently for a range of purposes, audiences and engaging the reader.

MATHEMATICS

To ensure that pupils become fluent in the fundamentals of mathematics, knowing and confidently applying key skills and reasoning mathematically

It is essential that all pupils have a secure grasp of age-appropriate skills and mathematical vocabulary allowing them to access a deeper understanding and apply their mathematical knowledge to other subjects.

DISCOVERY

SCIENCE

We aim to provide confident, enthusiastic teaching that engages and inspires all children’s natural curiosity about the world around them.

Through hands on investigation, questioning, discussion and analysis of their findings, pupils are enthused and apply their learning and scientific enquiry skills across a range of purposeful contexts.

COMPUTING

Understanding and applying the fundamental principles of computing

Including abstraction, logic, algorithms and data representation as well as digital technology. Pupils will be confident, considerate and safe internet users in all its forms. It is essential that pupils use technology as a tool for communication in the Modern World.

CREATIVITY

ART AND DESIGN

We want our children to be creative, confident in their use of colour and different artistic mediums.

Pupils need to develop their artistic skills in drawing, painting, printing, textiles, 3D sculpture, digital art and an appreciation of artists through the ages.

DESIGN AND TECHNOLOGY

We want our children to use a broad range of skills and understanding to design and make products that solve real and relevant problems in a variety of contexts

They should also enable pupils to engage in enterprise activities.

EXPRESSIVE ARTS AND PE

An appreciation of music, dance and drama as essential elements of cultural capital

We place great value on children to express themselves through the arts, dance and drama. PE and Sport are well promoted through the curriculum.

HISTORY AND HERITAGE

HISTORY

Our History Curriculum traces British History and the Great Civilisations of the world.

We aim to provide pupils with the knowledge, skills and understanding to appreciate our history and that of human creativity, endeavour and exploration through time.

CULTURAL HERITAGE

We feel that it is important that children understand and value their own identity and heritage

This includes their cultural roots, as citizens of Inkberrow, Worcestershire, and the UK and as members of the global society.

UNDERSTANDING THE WORLD

GEOGRAPHY

Our Geography Curriculum engages children in local study and the wider world, people, places and the environment

Children need to have the knowledge of the world’s oceans and continents, major countries and cities, social and physical geography, the environment and sustainability.

MODERN FOREIGN LANGUAGES

To develop language skills to support oracy and literacy, foster a love of language and enable our pupils to become global citizens

Learning another language gives pupils the valuable opportunity to develop positive attitudes to and respect of cultures other than their own. Our pupils will be able to acquire and develop language skills with increasing confidence and competence.

INKY VALUES

- Keen to Learn
- Organised
- Well-Behaved
- Determined
- Focused

BRITISH VALUES

- Democracy
- Rule of Law
- Tolerance and Mutual Respect
- Individual Liberty
