

# Year 3 Curriculum

## Extreme Earth

For this Topic, we are going to be exploring the exciting and dangerous world of earthquakes and volcanoes. We will be investigating why we have volcanoes and earthquakes and finding out where in the world they are located. As it's far too dangerous for us to visit a volcano in real life, we will be having a go at creating our own volcanic eruption in the Woodpeckers classroom, how cool is that!

## Powder and Plot

As we celebrate bonfire night with our families and friends and watch the night sky, become filled with bright colours. Let's travel back in time as history detectives to learn more about the reason why bonfire night is celebrated across the country! We will get hands on in forest school as we learn how to safe around the fire and taste some delicious treats, yummy!

## Dawn of the Man

We will become History detectives as we travel far back in time to the dawn of the man. We will find out about the past through a visit from an Archaeologist and will compare how different life was back then, did you know they had to build their own homes and catch their own food? We will be having a go at building our own shelters in forest school, I wonder if it will be warm in there?

## Marvellous Metals

We will continue to be History detectives as we learn more about Prehistoric Britain. We will explore how life changed for the early settlers once they had discovered Iron and Bronze. We will be trying a selection of foods and comparing them to the foods eaten during Prehistoric Britain and how our diets were different. I wonder if they ate the same foods as us?

## Secrets of the Sands

We will be History detectives as we travel back in time, to learn about the rulers of the sands in Ancient Egypt. We will be exploring what life is like in Egypt today and how it has changed over time. We will be taking a looking inside the gigantic ancient pyramids to find out why they were built. Let's hope we don't find any mummies in there!

## Relaxing Rivers

Join us as we travel down two of the largest rivers in the world. We will investigate how rivers are formed and the impact that they have on people's lives. We will be carrying out a study of the River Nile in Egypt and the River Severn in Worcestershire. We will be visiting the river Severn in Worcester, using our maps skills to help us find out more, let's hope we don't get lost!
