1	1.10.26	All eco councillors	Introductions and plans for year ahead.

Eco Council Meeting Minutes

1. Welcome and Introductions

Mr Burke welcomed everyone to the first Eco Council meeting of the year and introduced himself as the member of staff who will be leading and supporting the Eco Council this year.

Each Eco Council representative introduced themselves to the group. We discussed how the Eco Council will work together to help make our school and local community more environmentally friendly.

2. Our Ideas for This Year

The Eco Council shared ideas about what we would like to achieve during the year. Our initial ideas included:

- Organising a litter pick around the local village to help keep our community clean and tidy.
- Raising money for local environmental and eco charities.
- Making better use of our Forest School area, including considering how we can improve and care for the space.
- Planting environmentally friendly plants and flowers, particularly those that can support bees, butterflies and other wildlife.
- Taking greater responsibility for looking after our school grounds and considering ways we can make them more environmentally friendly.

3. Next Steps

The Eco Council will begin looking at these ideas in more detail during future meetings. We will decide which projects we would like to prioritise and consider what we need to do to make them happen.

Our aim: To work together to make a positive difference to our school, our local community and the environment.
