

# Lost Explorers: Knowledge Organiser

 Robert Falcon Scott	 Terra Nova	 Explorer	 Antarctica	 South Pole	 Compass
 British	 Norwegian	 Expedition	 Apollo 11	 Moon	 Neil Armstrong

Who was Robert Falcon Scott and what did he do?

Why did Scott's team go on the expedition to the South Pole?

## What is a Historical Source?

A **historical source** is any type of **material or evidence** that provides us with **information about the past**.

It can be a **written document**, such as **letters, diaries, or official records**, which tell us about historical events from the perspective of those who lived them.

They can also be physical objects, such as archaeological artifacts or monuments, that reveal aspects of the culture and society of previous eras.

**Historical sources** allow us to reconstruct and understand the past, analyze events, and draw conclusions about how humanity has evolved over time.

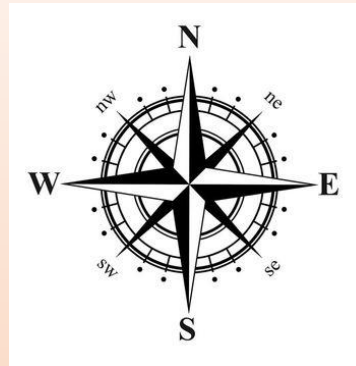

What happened on their expedition and how do we know?

How can we use sources to find information about the past?

## Key vocabulary

<b>Amundsen</b>	A Norwegian explorer of polar regions. He was a key figure of the period known as the Heroic Age of Antarctic Exploration
<b>Antarctic</b>	Relating to the south pole or to the region near it. Mostly southerly point on Earth
