

Virtual Memory Book

Swans
Autumn 2 2025

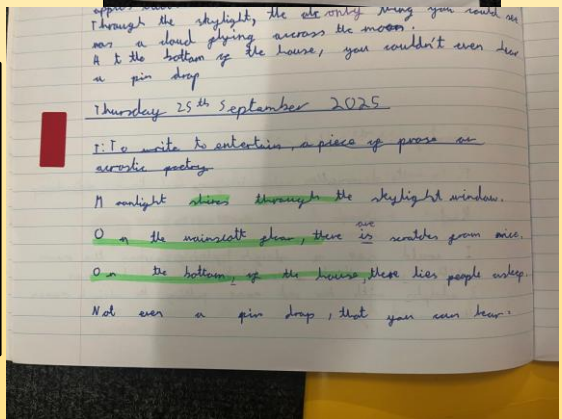

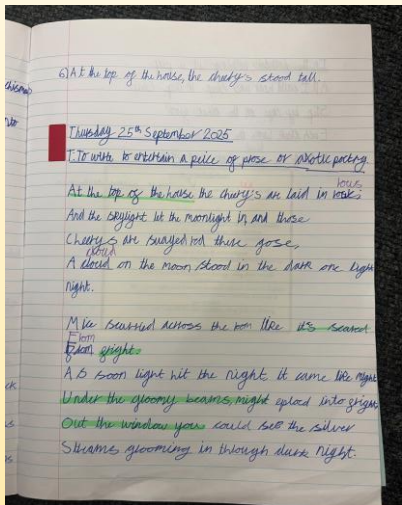

English

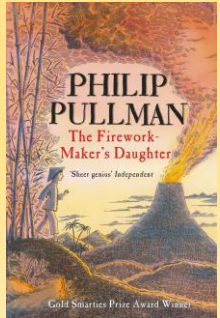

We used a video clip of an alternative version of the Three Little Pigs as inspiration for our Newspaper reports.

Newspaper reports

We researched the life and work of Taylor Swift and then chose our own person to write a biography about.

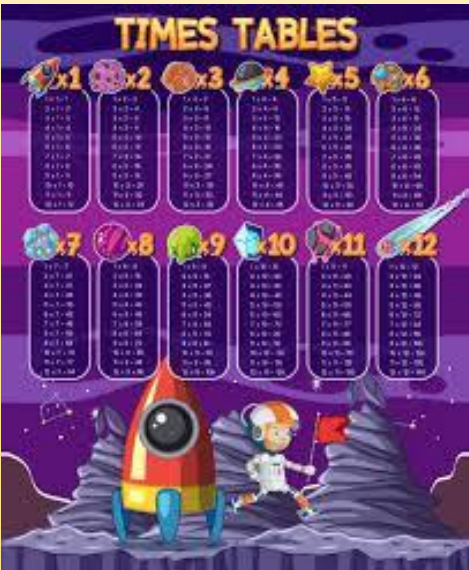

Biography

We have been reading...
The Firework Maker's Daughter
by Phillip Pullman

Area

We have looked at area in relation to the number of squares in a shape. We have practised all of the times tables - including the related fact families.

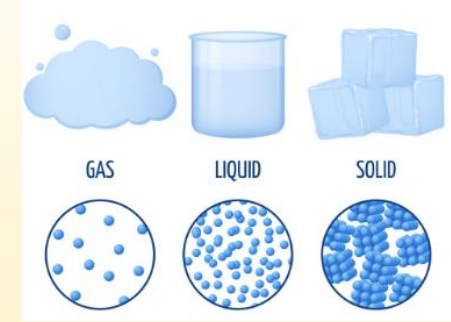

Multiplication and Division

Mathematics

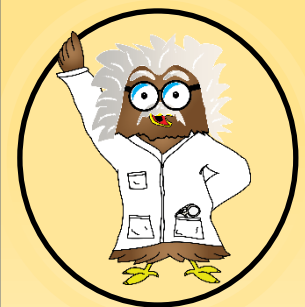

Science

States of Matter

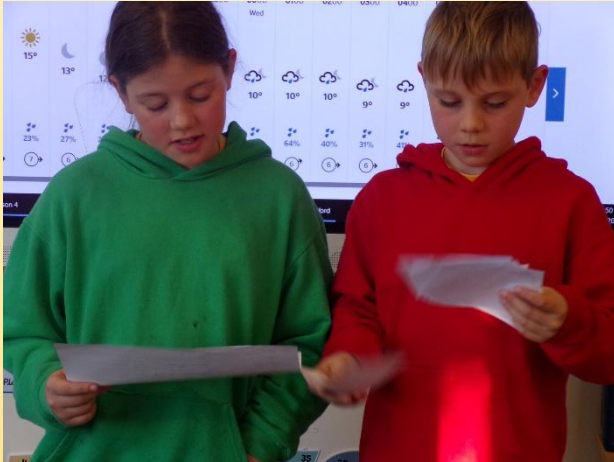

We really enjoyed looking at solids, liquids and gases. We talked about how the particles in each state of matter behave and explored the process of melting, using snow! We had fun with gloop – a non-Newtonian liquid.

We planned and carried out an experiment to compare how long it takes an ice cube to melt in cold and warm water. We made accurate readings using a thermometer and stop-watch.

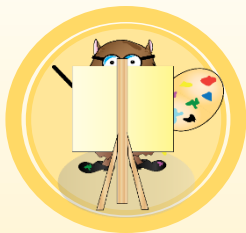

Geography In the Zone

We have learnt about the lines of latitude and climate zones around the world. We have explored climate and weather in each of these zones through research, presentation and by producing our own weather forecasts. We were visited by a virtual explorer, who told us about his expedition to the Arctic and Antarctic Circle. It was fantastic to have first hand experience of these climate zones.

Here are some of
our amazing
projects

We created book covers using a range of fastenings

We started by tasting lots of different biscuits to give us ideas for our own! We made and decorated gingerbread biscuits and some chocolate chip cookies. They were very popular at the Carols and Cuppas event.

Biscuits

D&T

Computing

We have explored online relationships, self-image and identity and online reputation through pair work.

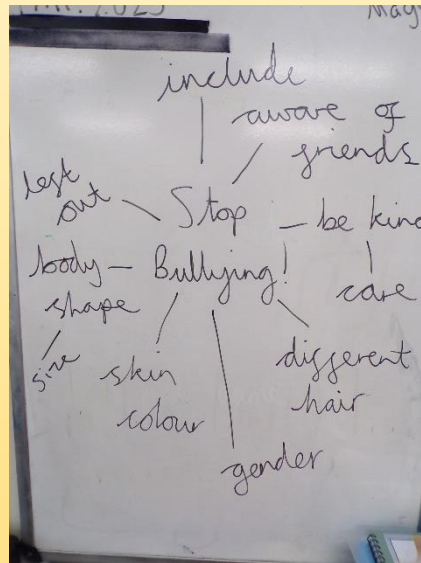

Online
Safety

Music

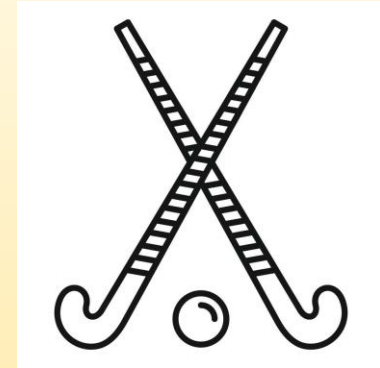

We have been creating and performing a rap called 'Stop Bullying!' The children had some great ideas around differences that should be celebrated and used these to create a rap.

Rap

PE

Hockey

The children have enjoyed playing hockey and doing gymnastics this half term.

Gymnastics

Aspiration Day

Hospitality

We took on the role of a chef – making biscuits in D&T and serving them to local members of the community. The children asked AI from Little AI's Kitchens some fantastic questions to find out more about what it takes to have a business in hospitality.
