

Marvellous Metals

Spring 2 Topic Homework

Woodies your challenge this term is to research a tool found in either the Iron or Bronze Ages.

Your design must:

- * **explain** how the tool was used (e.g. farming/ cooking)
- * **label** which materials were used to make it
- * **identify** which time period it is from

Challenge: How have tools changed through the Stone to Iron Age?

If you would then like to create a model of your tool after your research, I would love to see them 😊

The deadline for the design is **Friday 27th March.**
