

## Spring 2: Under the Sea

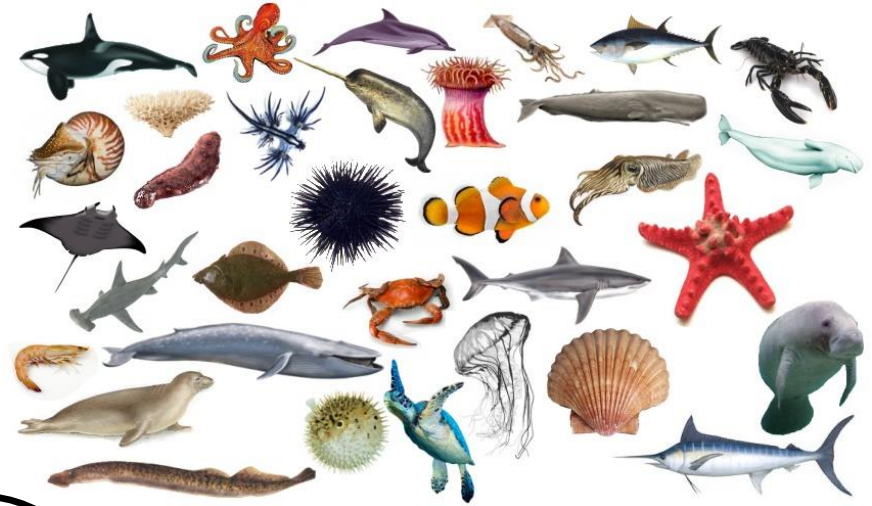

### Science glossary:

**Carnivore:** an animal that eats meat.

**Herbivore:** an animal that eats plants.

**Omnivore:** an animal that eats both meat and plants.

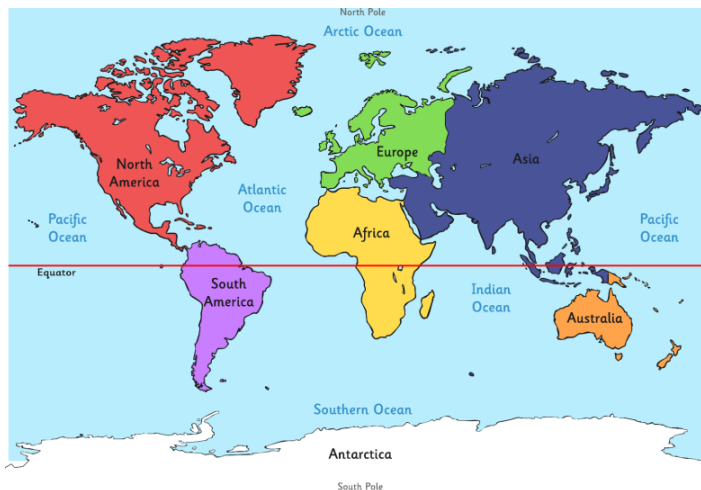

Can we research, identify and name a selection of sea creatures?

Can we locate the oceans that the different sea creatures swim in?

### Oceans

Pacific  
Atlantic  
Indian  
Arctic  
Southern

What forms of transport are used to explore the oceans?

Amazing to watch!

Can we recognise and talk about the steps within a life cycle?

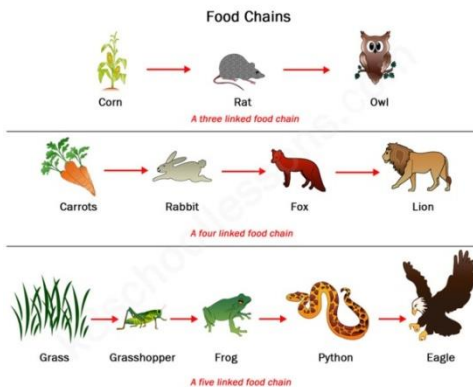

Can we describe how the ocean habitat provides for the basic needs of things living there?

A life cycle is the different stages of life for a living thing.

Can we describe a food chain and explain the transfer of energy?

A habitat is a place that an animal lives. It provides the animal with food, water and shelter.

A food chain is the transfer of energy from one species to another.
